MEMORANDUM FOR: Deputy Director (Intelligence)

ATTENTION OF: Mr. Eugene B. Wilhelm

SUBJECT: Comments on memorandum entitled, "Printing of  
[redacted] Reports"

1. This office believes that [redacted] should continue to print its own reports within the limits indicated in [redacted] attached memorandum. We believe that it is particularly appropriate for these reports to be printed and assembled [redacted] because of the peculiar nature of the numerous forms in which each finished product is required. Frequently one volume must be assembled and cross-assembled in a wide variety of security classifications and subject breakdowns, with all of which [redacted] is familiar.

2. Our experience to date indicates that [redacted] has the requisite capabilities for fulfilling Agency publication requirements for its reports efficiently and economically.

3. It is recommended that the DD/I and the Office of General Services concur in permitting [redacted] to publish its reports with a printing budget to be included in each project statement prior to PRC approval.

[redacted]  
CLAUDE E. HAWLEY
